Proposal Title: Inter-Theater Coalition Wide Area Network

Short Title: ITCWAN

Logo

Abstract of Project
- XYZCOM lacks a strategic Wide Area Network (WAN) to share sensitive information among coalition partners

Objective
- Build architecture for a secure, reliable WAN for coalition involving multiple theaters
- Extend the XYZCOM Coalition Networking Initiative strategy

Deliverables:
- Fieldable secure network for brigade and below ground communications.

Technology Maturity:
- TRL level (start of project)
- TRL level (projected at completion of CW project)
